WALTON'S PLURALITY PASSES 30,000

MINORITY ASKS ACCEPTANCE OF FORD'S SCHEME

Both Parties in the Senate
Agricultural Group
Seeks Adoption.

LIKE SHIP SUBSIDY

Farmers Will Lose Fight
At Muscle Shoals If
Bid Is Rejected.

(By the Associated Press)
WASHINGTON, Aug. 4.—Acceptance of Henry Ford's offer for purchase and lease of the government's vast nitrate and power projects at Muscle Shoals, Ala., was urged by republican and democratic senators comprising a minority of the senate agriculture committee in a report submitted to the senate today. Strong protests were entered against the government ownership and operation plan proposed by Senator Harris, of Nebraska, the committee's chairman.

The government has lost three million dollars at Muscle Shoals since the armistice, according to the report, and while objections to the Ford offer are admitted to "seem apparent" it is asserted that none of these can be remedied in government ownership. Attention was called to the "present fuel and transportation emergency in the light of developments of such a hydro-electric power as is found at Muscle Shoals."

Answering the argument that the bill would give Mr. Ford a subsidy, the report continued that it was similar to the ship subsidy bill, pointing out that the merchant marine bill would require an expenditure of \$125,000,000 while the Muscle Shoals project would cost the government only \$42,000,000 with no future cost.

Would Extend Lease.
Minority senators also declared their willingness to agree to Mr. Ford's request for a 100-year lease instead of 50 years because of the large expenditure necessitated by the development. The assertion was made that the public would lose more in fifty years of government ownership than would be gained by refusing to consent to a 50-year lease.

After stating that the senators are undivided of claims of the Alabama Power company, the report concluded:

"If Mr. Ford's offer is rejected the farmers will have lost their fight at Muscle Shoals and the Alabama Power company will have won its fight for a complete monopoly of the water powers of the rivers in Alabama."

FORD'S OFFER WAS FIRST
UPON SHOALS PROPERTY
FLORENCE, Ala., Aug. 4.—Henry Ford's bid for Muscle Shoals, submitted July 8, 1921, the first bid for the properties, contained these principle features:

Outright purchase of nitrate plants Nos. 1 and 2 for \$5,000,000. Payment of approximately \$1,680,000 annual "rental" as interest on capital invested for water power rights.

Reimbursement of \$40,000,000 spent by the government on Wilson Dam.

Reimbursement of \$8,000,000 to be spent by the government in building and equipping Dam No. 3.

Outright expenditure of \$15,000,000 by the government in erection of three locks in connection with these two dams.

Muscle Shoals begin at Florence and extend eastward up the Tennessee river thirty miles, having a fall in that distance of 130 feet. Navigation around the shoals has been provided by means of the Muscle Shoals Canal, a waterway six miles long and containing 11 locks. This canal was begun about 1820 and by intermittent effort was partly completed in 1890 when it was opened for navigation. Both the state of Alabama and the Federal government participated in this work.

Diamond Drills Used
In 1910 government engineers recommended that navigation and power should be jointly developed at Muscle Shoals and in 1914 an appropriation was made for diamond drill borings which proved the sufficiency of the foundation for proposed dams. A survey was made of lands that would be inundated and options were taken by citizens of Sheffield and Florence in the name of the government.

When the war began, the govern-

SEE THE PRETTY BUTTERFLY

CITY LEAGUE TO RESUME PLAYING

Three Teams Ready To Go
Into Spirited Race for
First Honors.

After several weeks' postponement the city baseball league will again be started next week, according to plans announced today by managers of teams. Three teams are bidding for first honors and the remaining four games will decide the champions.

College men have completed their schedule, playing nine games and winning only two. Athletic Association and Legion teams stand tied for first place, with four won and two lost. Midgets, after starting the season in great form, have dropped to third place with four won, three lost and one tied.

Practically all players of the three clubs are in the city now. National guard encampment of last month caused the league to be interrupted. Dates for the remaining four games follow:

Aug. 8. Clerks vs. American Legion.

Aug. 10. Legion vs. Midgets.

Aug. 15. Clerks vs. Midgets.

Aug. 17. Clerks vs. Legion.

This leaves three games for the Legion and Clerks and two for the Midgets. Any team, by winning all its games, can come out ahead. Any team losing two games will drop to third place and any team losing one game will go to second.

Managers of the three clubs are urged to get their men together. As the baseball league will be an annual affair, the club winning this year will have attained a distinct honor. It is intimated that a prize will be awarded the winner.

The first game will be played on the college field next Tuesday afternoon beginning at 5:30.

CORRECTION

In the tabulated returns of the primary an error was made in two headings. Steedman and Stonewall were reversed. The figures in the column marked Stonewall should be under the Steedman head and vice versa. By exchanging the heads over these two columns one will have it correct except in the case of Looney's vote for state senator. He received 25 votes at Steedman and 113 at Stonewall.

Sore throats, diphtheria and many similar complaints are practically unknown among those employed in the oil fields, refineries and other branches of the petroleum industry.

Man Arrested In Sheriff's Office On Liquor Charge

When W. D. Aycock walked into the office of Sheriff Bob Duncan at 9 o'clock Thursday night he never had a thought of spending the night away from home. Ten minutes later the county jail door clanged behind him and he was a prisoner on a liquor charge.

Deputy Sheriff J. B. Chapman had noticed a bottle protruding from Aycock's pocket and arrested him. A charge of transporting intoxicating liquor was filed Friday in the county court.

This is believed to be the only case in the county's history when a liquor arrest was made in the sheriff's office. Jailer Ted Rodgers is listed as one of the witnesses when the case comes to trial.

Ethel Bassinger, a county prisoner on a contempt of court conviction, is another witness.

Aycock came into the office and, after selecting a chair, put himself at ease and inquired about some prisoners in the county jail on a liquor count.

"What's that in your pocket?" Deputy Sheriff Chapman asked.

"Liquor," Aycock is said to have answered.

Chapman took charge of the bottle and smelled it.

"That's more corn whiskey than liniment," the officer declared. He then ordered Aycock locked up.

GUARDS AT MINES ARE FIRED UPON BY HIDDEN FOES

(By the Associated Press)
STAUNTON, Ind., Aug. 4.—First hostilities with the taking over of the mines by the state occurred today when national guardsmen on guard duty were fired upon from ambush.

The fire was returned by the guardsmen and later the firing was taken up over the entire area. Automatic rifles were brought into action by the troops and the firing continued for more than an hour.

Reports received by Major General Robert Tyndall in command of troops said no one was injured. It was said, however, by some of the men on duty that one man was slightly injured.

Officers in command of the troops belittled the affair saying it was a minor skirmish. The situation was regarded as quiet despite the firing which began again after midnight and continued until daybreak.

INVENTOR'S BODY WILL REST HIGH

Alexander Graham Bell To
Be Buried Upon Summit
of His Estate.

(By the Associated Press)
SYDNEY, NOVA SCOTIA, Aug. 4.—The body of Dr. Alexander Graham Bell, will be laid to rest this evening from the home on Beinn Breigh mountain which he occupied for 35 successive summers. Interment will be made in a granite tomb blasted in the summit of the mountain, a part of the Bell estate.

The body will be brought to its burial place on the highest point in eastern Nova Scotia by members of the Bell estate. There it will be laid away in its lofty look-out with a simple ceremony and to the singing of Robert Louis Stevenson's requiem:

"Under the wide and starry sky
Dig the grave and let me lie;
Glad did I live and gladly die,
And I lay me down with a will."

Messages of condolence received here today, included the following: From William Howard Taft, chief justice of the United States of America; James J. Davis, secretary of labor; New York American Society of Civil Engineers; American Institute of Mining Engineers; American Society of Mechanical Engineers; American Institute of Electrical Engineers; and United Engineers Society, representing the engineering profession in America.

Messages were also received from Lord Byng, of Vimy, governor-general of Canada and Lady Byng.

DEATH RATE FOR ADA AND COUNTY AT LOW FIGURE

Ada's death rate recently has been comparatively small, according to local undertakers. There have been more deaths during the first seven months than during the same period last year, but the increase is only in keeping with the growth of the population, it was pointed out.

Sickness has also been on the decline. Only a few cases of contagious disease have been reported in Ada and community. Bad colds are the chief ailment, local physicians assert. Most of the deaths of the community are among children.

PRECINCTS ARE READY TO HOLD CALL MEETINGS

County Chairman Seeks
Certified Delegates
For County Meet.

LOCAL WARDS ACTIVE

City Precinct Leaders Get
Their Quotas for
Convention.

Announcement today of meeting places for all wards of the city completed arrangements, locally, for Democratic precinct conventions throughout the county tomorrow in preparation for the county convention at the court house here August 8.

Call for both precinct and county conventions was sounded Monday by Robert Wimbish, county chairman. Election of delegates to the county conventions next week will be principal work of the precinct meetings. Basis for representation is one delegate for each 50 votes or major fraction thereof cast in each precinct for Scott Ferris for U. S. senator in the general election of 1920. A precinct with less than 50 votes gets one delegate, regardless.

In his statement early this week to precinct chairman, Wimbish declared "it is the policy of the present administration that each precinct be represented by persons residing therein." The county chairman also stated that "if proxies are sent to the county convention, please see to it that the persons holding these proxies are residents of your voting precinct."

Chairmen Busy.
Calls for precinct meetings in Ada tomorrow were issued this morning by various ward chairmen.

Ward 1 will meet Saturday night at 8 o'clock at the City Hall, according to Chairman Sam A. McKel. This ward is entitled to 13 delegates.

Ward 2, with D. C. Abney chairman, will meet at the court house Saturday night at 8 o'clock. It will elect eight delegates.

Ward 3, headed by E. N. Jones will meet Saturday night at 8 o'clock at Pool's store. This ward is entitled to four delegates.

Ward 4, according to a call made public by Chairman J. T. Emory, will meet Saturday afternoon at 3 o'clock at the court house to select eight delegates.

Other precincts in the county, together with their chairmen and the number of delegates to which each is entitled at the county convention, follow:

Capitol Hill, E. H. Lucas, 1.
Allen, Forde Harrison, 5.
Fitzhugh, H. S. Williams, 3.
West Roff, W. W. Williams, 3.
East Roff, A. L. Bullock, 4.
Knox, B. B. Hampton, 1.

Ada rfd., Frank Veller, 1.

China has 50,000 miles of telephone lines.

Our WeatherMan

Partly cloudy to cloudy tonight and Saturday.

TELEPHONE BELL WILL HONOR ITS DEAD INVENTOR

There will be no service on the entire Southwestern Bell Telephone system for one minute beginning at 5:25 p. m. today, according to E. A. Steanson, manager of the local plant. This is being done in memory of Alexander Graham Bell, inventor of the telephone who died yesterday at his home in Badgett, Nova Scotia.

Operators from all over the system will not recognize calls lines will be closed and no telephone bell will ring during the minute set aside for reverence to the great inventor, it was said. This includes Ada together with all cities in this state and other states served by the system.

OWEN FORCES TO MAP OUT COURSE

Wilson Club Is Invited To
Attend a Conference
About Walton.

MUSKOGEE, Aug. 4.—Officers of the Thomas H. Owen for Governor Club, of this city, today issued a call for a meeting on Monday night to decide whether or not its membership will support J. C. Walton as the Democratic nominee for chairman of the Owen organization. The Owen supporters also issued an invitation to members of the Wilson for Governor Club asking them to attend the meeting and participate in the deliberations.

HEAVY GAS FLOW DELAYS TRAFFIC

Trains Are Tied Up Near
Bristow By Terrific
Output of Well.

(By the Associated Press)
BRISTOW, Aug. 4.—A giant gas well, which held up traffic between Tulsa and Oklahoma City over 14 hours, is now under control and estimated to be making 2500 barrels of oil and 25,000 feet of gas daily. Trains are now running.

(By the Associated Press)
BRISTOW, Aug. 4.—A giant gas well, estimated to be making thirty million feet of gas per hour and spraying fifty barrels of oil hourly, is holding up all passenger and freight traffic over the Frisco lines between here and Kellyville, and delaying all trains between Tulsa and Oklahoma City. The well is but 150 feet from the railroad tracks and has filled the valley for more than a mile around with gas. Railroad officials fear the operation of trains would ignite the explosive gas and cause a disastrous fire.

With a large force of men at work today in an effort to shut off the well, it is thought that train service may be resumed by late evening.

This giant well is in wildcat territory more than a mile northwest of the present Continental pool near Bristow.

Knox Man Arrested Upon Complaint of Assault on Woman

A. E. Haskins who lives west of town near Knox, was arrested Thursday by Sheriff Bob Duncan and Deputy J. B. Chapman on a complaint of assault with attempt to rape. He was in the county jail Friday and charges were being prepared by Assistant County Attorney Hugh F. Hattis.

Haskins, according to a statement from a neighbor woman, entered her house late Thursday and, without warning, attacked her. The woman's husband, it was said, was in Ada employed on street work. Two children were in the house.

The woman's screams brought neighbors to the house and officers were called.

According to ancient superstition, it is unlucky for a bride to choose bridesmaids who are younger than herself.

LEAGUE RUNNERS STACK UP HEAVY COUNT IN STATE

R. H. Wilson Slumps 27,000
Under Oklahoma City's
Mayor in Finals.

TRAPP OVER DARNELL

George Short Will Emerge
Victor For Attorney
General, Belief.

(By the Associated Press)
OKLAHOMA CITY, Aug. 4.—Mayor J. C. Walton of Oklahoma City continued to gain in his lead over R. H. Wilson for the Democratic nomination for governor as belated returns were received today from Tuesday's primary election. With less than 500 precincts still to be reported, Walton had a plurality of almost 30,000 votes.

John Fields, publisher of a farm paper here, was steadily increasing his plurality over George Healy, his republican opponent for gubernatorial nomination in one of the most unusual races the state has ever seen. Fields made no campaign and expended not a penny in connection with it, according to his own statement, but from the start he has been the undisputed nominee.

The vote from 1,088 precincts out of 2,837 in the state gave Fields 34,499 and Healy 4,476.

No Race Changed
Returns from the other precincts indicate also that the standing in no race has been altered and the lead previously established is mostly being maintained.

M. E. Trapp, lieutenant governor, seeking the Democratic renomination had succeeded in obtaining a margin of more than 4,000 votes over W. M. Darnell, reconstruction league candidate, on face of returns from 1546 precincts. Dennis Flynn of Sapulpa held his lead for republican nomination for this office.

In the contest for the Democratic nomination for corporation commissioner Campbell Russell, incumbent, showed a burst of speed and in returns received since last night had cut down the long lead of Frank Carter by almost half. The count from 1669 precincts showed Carter 39,101 and Russell 31,680. Cash Cade still led the field of republicans for this nomination.

(By the Associated Press)
OKLAHOMA CITY, Aug. 4.—A plurality in excess of 30,000 on final returns from Mayor J. C. Walton of Oklahoma City, Democratic nominee for governor of Oklahoma, was indicated today as the unofficial count of the ballots in Tuesday's primary neared completion.

Walton, the choice of the anti-Ku Klux Klan and farmer-labor forces of the state, had more than 27,000 votes over R. H. Wilson, state superintendent of public instruction and alleged "invisible empire" candidate, with returns missing from 603 out of the 2,837 precincts in the state.

The vote: Walton 90,846; Wilson 63,779; Thomas H. Owen 51,772.

John Fields of Oklahoma City, the republican nominee who will meet Walton at the polls in November, was assured of a majority of around 12 to 1.

Later returns from the fifth congressional district gave Representative T. A. Chandler, republican of Tulsa, a lead of 11,037 votes in his sharp contest with B. B. Schwabe of Nowata for the republican nomination.

Six of the eight members of the Oklahoma congressional delegation appeared assured of renomination.

Manuel in Tail Spin
Manuel Herrick of Perry, self styled aerial daredevil representative from the eighth district, was the only one whose defeat was sure. His ambition to return to the national capitol to continue demonstration of his aerial daring terminated in a tail spin.

Miss Alice Robertson, republican of Muskogee, the only woman member in the present congress again met W. H. Hastings, democrat of Tahlequah, whom she defeated for representative in 1920 in the second district.

Among the candidates for nomination for state offices Mrs. Mabel Bassett of Sapulpa seeking the Democratic nomination for commissioner of charities and corrections, stood out. She was leading William D. Matthews, incumbent, by approximately 10,000 votes.

(Continued on Page Three)

NOTICE TO PROPERTY OWNERS
Notice is hereby given that the assessment charges fixed by the Board of Appraisers against lots and tracts of land within Street Improvement District No. 6, same being a portion of South Townsend avenue, established by resolution on May 3rd 1922, were reviewed, revised, corrected and confirmed by the Board of Commissioners of the City of Ada, on the 1st day of August, 1922.

According to law, property owners liable to assessment for the improvement as set out in Ordinance No. 487 passed and approved on August 1, 1922, may pay said assessment on or before August 31, 1922, without interest. All payments shall be made to J. C. Deaver, City Clerk and Commissioner of Accounting and Finance in the City of Ada, Oklahoma.

Below is a statement of the property and the amount of assessments.

Dated this 1st day of August, 1922.
(Seal) J. C. DEEVER,
City Clerk and Commissioner of Accounting and Finance.

SEE MUST ENFORCE FEDERAL TAX LAWS IN 83 DISTRICTS

Mrs. Mabel Walker Willebrandt.

Mrs. Mabel Walker Willebrandt as one of the six assistant attorneys general of the United States must enforce all federal taxation statutes other than customs in eighty-three federal districts. The prohibition act and traffic in liquor, the insurance act, federal employees' compensation and pension matters, the pure food and meat inspection acts and the administration of prisons all come under her jurisdiction.

NOTICE TO PROPERTY OWNERS
Notice is hereby given that the assessment charges fixed by the Board of Appraisers, against lots and tracts of land within Street Improvement District No. 10, same being a portion of West Seventeenth street established by resolution on May 3rd, 1922, were reviewed, revised and confirmed by the Board of Commissioners of the City of Ada on the 1st day of August, 1922.

According to law, property owners liable to assessment for the improvement as set out in Ordinance No. 488 passed and approved on August 31st, 1922, may pay said assessments on or before August 31st, 1922, without interest. All payments shall be made to J. C. Deaver, city clerk and commissioner of accounting and finance in the city of Ada, Oklahoma.

Below is a statement of the property and the amount of assessments.

Dated this 1st day of August, 1922.
(Seal) J. C. DEEVER,
City Clerk and Commissioner of Accounting and Finance.

The good results obtained in 1921 from flax cultivation have stimulated Finnish farmers to sow more seed this year.

RADIO

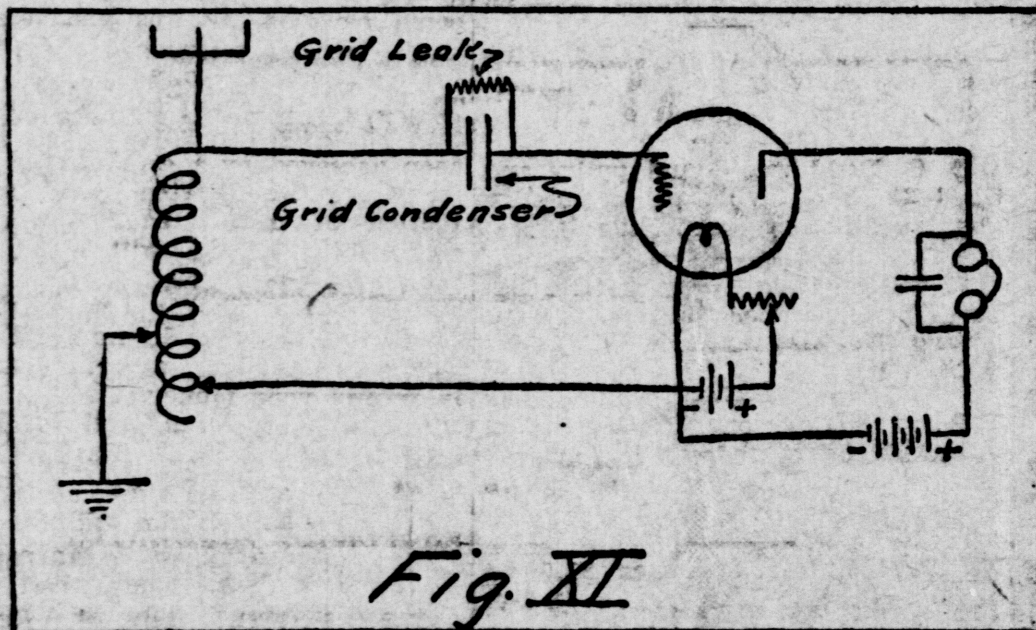

MORE ABOUT VACUUM TUBE AS A DETECTOR

How a "Three-Electrode" Is Connected in a Simple Radio Receiving Circuit.

Obviously working the tube at a point on the upper bend of knee of the characteristic curve would produce the same symmetrical changes in the plate circuit by symmetrical changes in the grid potential as it will if the tube is worked at the lower end of

knee of the curve. However, the alternating current applied to the grid would now produce a large decrease and a small increase of the plate current, the reverse of that shown in Fig. 9. The objection to working the tube on the upper bend of knee of the curve is that when no potential is applied to the grid a relatively large

current would flow in the plate circuit and rapidly exhaust the "B" battery.

Should the tube, by means of the potential applied to the grid, be made to operate at a point on the characteristic curve midway between the upper and lower bends—that is, on the straight part of the curve, symmetrical variations in the grid potential would cause symmetrical change in the

USING ELECTRIC LIGHT WIRE

Experts Tell the Safe Way to Employ This System for Radio Receiving.

Since the announcement that the bureau of standards of the department of commerce had perfected a method of employing electric light wires in place of aerials, considerable experimenting has been done by various amateurs, some of whom have had good luck while others succeeded only in blowing a large number of fuses.

Engineers of an eastern electric light company have offered the following suggestions to amateurs:

"First—Successful results have been obtained so far only with audio bulb sets. Crystal sets receive the signals, but for some reason they are very weak and indistinct.

"Second—No set should be used on this system without air or oil filled condensers, placed in series with either the antenna circuit or the ground circuit—preferably in the antenna circuit.

"Third—A fuse not heavier than one-half ampere should be used in series and just ahead of the antenna connection.

"Fourth—An ordinary separate detachment plug—i. e., one with two blades connecting the two separate halves of the plug—is used. Only one wire is run from this plug, the other binding screw left undisturbed. This single conductor wire should be long enough to reach from a handy electric light socket to the table where the instrument is located and should terminate in the fuse mentioned above.

In case an externally connected condenser is used, the circuit should be run from the fuse to the condenser and from the condenser to the antenna binding post of the receiving set.

"In sets where the condenser is built into the instrument the connection from the fuse is run directly to the antenna binding post. All other connections should be exactly the same as for conventional overhead aerial receiving.

"Screw the attachment plug into the electric light socket and tune as usual. In case no signals are received reverse the blades in the attachment plug by simply pulling the attachment

plug apart and turning the lower half half-way around.

"Caution—Under no consideration should the connection from the electric light socket be brought directly into contact with the ground connection, or fuses will be blown in the house circuit and the whole house left without light. Operators should also be careful about making contact themselves bodily with the electric light wire and ground at the same time, in order to avoid shock."

Northcliffe Near Death
Viscount Northcliffe. There was increase in the heart weakness previously noted, and he was in a state of mental exhaustion.

DODGE BROTHERS BUSINESS COUPE

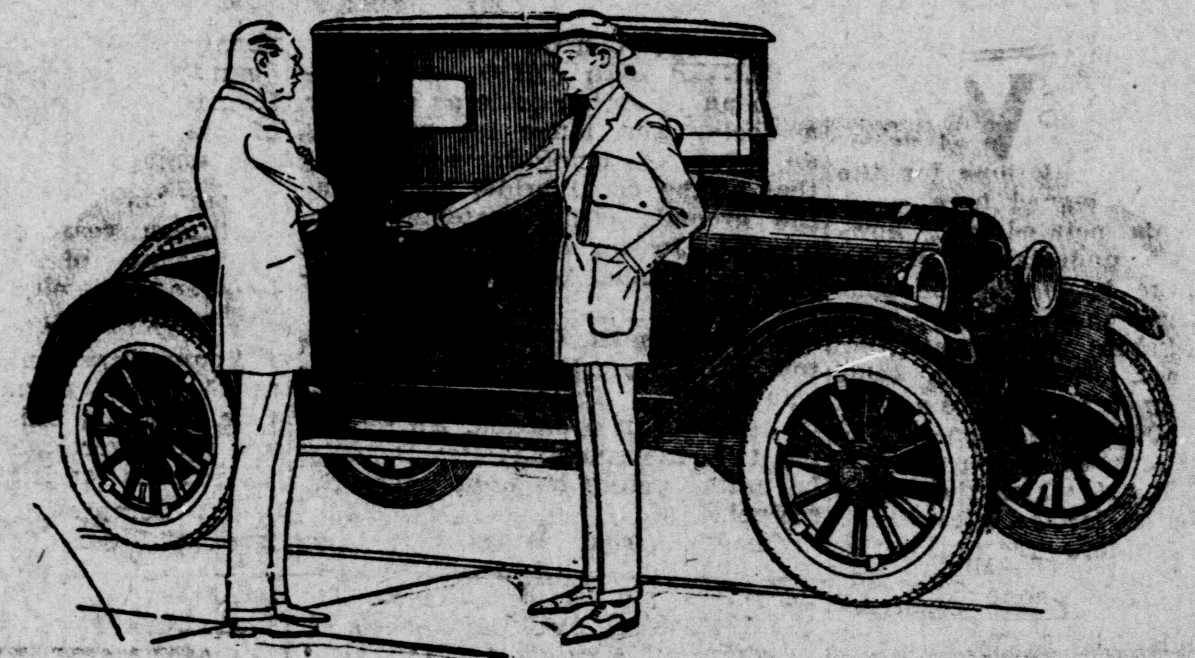

Built and priced for practical, everyday use. Beauty and lightness skillfully blended with rugged strength.

The steel body finished in Dodge Brothers baked enamel. Genuine leather upholstery. Ample doors, window levers, heater and cord tires. A wide, straight seat. Spacious carrying compartments.

In short, closed car dignity and protection at little more than the price of an open roadster.

The price is \$1115 delivered

WALTER N. WRAY
226-28 East Main Street

"Mother — everybody says it's way after ten o'clock in the morning and we got to have a lot of Kellogg's Corn Flakes or we can't go ahead and play any longer. We're real hungry somethin' fierce!"

for meal-time and play-time

Kellogg's CORN FLAKES
cooling-delicious-healthy

Hungry little folks—AND BIG FOLKS—will find many palate thrills in big, generous helpings of Kellogg's Corn Flakes, particularly when served with the luscious fresh fruits now in season! Just can't be anything better for breakfast, for lunch, or for supper when the thermometer's away up! And such a feast for between-times "snacks"!

Summer's the time for "safety first" with family stomachs! Every one works better, thinks better, plays better—and feels a lot better with lighter food on the hot days! And, crisp, delicious Kellogg's Corn Flakes are everything that can be desired—for health, for enjoyment, for nour-

ishment—they are so easy to digest, yet they sustain! You can't "overdo" on Kellogg's—no matter how much you eat!

At the evening meal, as a new and delightful dessert, serve Kellogg's Corn Flakes with fresh fruit and a generous helping of cream!

Kellogg's Corn Flakes are sold universally in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

WALTON'S PLURALITY PASSES 30,000

MINORITY ASKS ACCEPTANCE OF FORD'S SCHEME

Both Parties in the Senate Agricultural Group Seeks Adoption.

LIKE SHIP SUBSIDY

Farmers Will Lose Fight At Muscle Shoals If Bid Is Rejected.

(By the Associated Press)
WASHINGTON, Aug. 4.—Acceptance of Henry Ford's offer for purchase and lease of the government's vast nitrate and power projects at Muscle Shoals, Ala., was urged by republican and democratic senators comprising a minority of the senate agriculture committee in a report submitted to the senate today. Strong protests were entered against the government ownership and operation plan proposed by Senator Harris, of Nebraska, the committee's chairman.

The government has lost three million dollars at Muscle Shoals since the armistice, according to the report, and while objections to the Ford offer are admitted to "seem apparent" it is asserted that none of these can be remedied in government ownership. Attention was called to the "present fuel and transportation emergency in the light of developments of such a hydro-electric power as is found at Muscle Shoals."

Answering the argument that the bill would give Mr. Ford a subsidy, the report continued that it was similar to the ship subsidy bill, pointing out that the merchant marine bill would require an expenditure of \$125,000,000 while the Muscle Shoals project would cost the government only \$42,000,000 with no future cost.

Would Extend Lease.
Minority senators also declared their willingness to agree to Mr. Ford's request for a 100-year lease instead of 50 years because of the large expenditure necessitated by the development. The assertion was made that the public would lose more in fifty years of government ownership than would be gained by refusing to consent to a 50-year lease.

After stating that the senators are undivided of claims of the Alabama Power company, the report concludes:

"If Mr. Ford's offer is rejected the farmers will have lost their fight at Muscle Shoals and the Alabama Power company will have won its fight for a complete monopoly of the water powers of the rivers in Alabama."

FORD'S OFFER WAS FIRST UPON SHOALS PROPERTY

FLORENCE, Ala., Aug. 4.—Henry Ford's bid for Muscle Shoals, submitted July 8, 1921, the first bid for the properties, contained these principle features:

Outright purchase of nitrate plants Nos. 1 and 2 for \$5,000,000. Payment of approximately \$1,650,000 annual "rental" as interest on capital invested for water power rights.

Reimbursement of \$40,000,000 spent by the government on Wilson Dam.

Reimbursement of \$8,000,000 to be spent by the government in building and equipping Dam No. 3. Outright expenditure of \$15,000,000 by the government in erection of three locks in connection with these two dams.

Muscle Shoals begin at Florence and extend eastward up the Tennessee river, thirty miles, having a fall in that distance of 130 feet. Navigation around the shoals has been provided by means of the Muscle Shoals Canal, a waterway eleven miles long and containing 11 locks. This canal was begun about 1820 and by intermittent effort was partly completed in 1890 when it was opened for navigation. Both the state of Alabama and the Federal government participated in this work.

Diamond Drills Used
In 1910 government engineers recommended that navigation and power should be jointly developed at Muscle Shoals and in 1914 an appropriation was made for diamond drill borings which proved the sufficiency of the foundation for proposed dams. A survey was made of lands that would be inundated and options taken by citizens of Sheffield and Florence in the name of the government.

When the war began, the govern-

CITY LEAGUE TO RESUME PLAYING

Three Teams Ready To Go Into Spirited Race for First Honors.

After several weeks' postponement the city baseball league will again be started next week, according to plans announced today by managers of teams. Three teams are bidding for first honors and the remaining four games will decide the champions.

College men have completed their schedule, playing nine games and winning only two. Athletic Association and Legion teams stand tied for first place, with four won and two lost. Midgets, after starting the season in great form, have dropped to third place with four won, three lost and one tied.

Practically all players of the three clubs are in the city now. National guard encampment of last month caused the league to be interrupted. Dates for the remaining four games follow:

Aug. 5. Clerks vs. American Legion.

Aug. 10. Legion vs. Midgets.

Aug. 15. Clerks vs. Midgets.

Aug. 17. Clerks vs. Legion.

This leaves three games for the Legion and Clerks and two for the Midgets. Any team, by winning all its games, can come out ahead.

Any team losing two games will drop to third place and any team losing one game will go to second.

Managers of the three clubs are urged to get their men together. As the baseball league will be an annual affair, the club winning this year will have attained a distinct honor. It is intimated that a prize will be awarded the winner.

The first game will be played on the college field next Tuesday afternoon beginning at 5:30.

CORRECTION
In the tabulated returns of the primary an error was made in two headings. Steedman and Stonewall were reversed. The figures in the column marked Stonewall should be under the Steedman head and vice versa. By exchanging the heads over these two columns one will have it correct except in the case of Looney's vote for state senator. He received 25 votes at Steedman and 113 at Stonewall.

Sore throats, diphtheria and many similar complaints are practically unknown among those employed in the oil fields, refineries and other branches of the petroleum industry.

Man Arrested In Sheriff's Office On Liquor Charge

When W. D. Aycock walked into the office of Sheriff Bob Duncan at 9 o'clock Thursday night he never had a thought of spending the night away from home. Ten minutes later the county jail door clanged behind him and he was a prisoner on a liquor charge.

Deputy Sheriff J. B. Chapman had noticed a bottle protruding from Aycock's pocket and arrested him. A charge of transporting intoxicating liquor was filed Friday in the county court.

This is believed to be the only case in the county's history when a liquor arrest was made in the sheriff's office. Jailer Ted Rodgers is listed as one of the witnesses when the case comes to trial.

Ethel Bassinger, a county prisoner on a contempt of court conviction, is another witness.

Aycock came into the office and, after selecting a chair, put himself at ease and inquired about some prisoners in the county jail on a liquor count.

"What's that in your pocket?" Deputy Sheriff Chapman asked.

"Liquor," Aycock is said to have answered.

Chapman took charge of the bottle and smelled it.

"That's more corn whiskey than liniment," the officer declared. He then ordered Aycock locked up.

GUARDS AT MINES ARE FIRED UPON BY HIDDEN FOES

(By the Associated Press)
STANTON, Ind., Aug. 4.—First hostilities with the taking over of the mines by the state occurred today when national guardsmen on guard duty were fired upon from ambush.

The fire was returned by the guardsmen and later the firing was taken up over the entire area. Automatic rifles were brought into action by the troops and the firing continued for more than an hour.

Reports received by Major General Robert Tyndall in command of troops said no one was injured. It was said, however, by some of the men on duty that one man was slightly injured.

Officers in command of the troops belittled the affair saying it was a minor skirmish. The situation was regarded as quiet despite the firing which began again after midnight and continued until daybreak.

INVENTOR'S BODY WILL REST HIGH

Alexander Graham Bell To Be Buried Upon Summit of His Estate.

(By the Associated Press)
SYDNEY, NOVA SCOTIA, Aug. 4.—The body of Dr. Alexander Graham Bell, will be laid to rest this evening from the home on Beinn Breigh mountain which he had occupied for 35 successive summers. Interment will be made in a granite tomb blasted in the summit of the mountain, a part of the Bell estate.

The body will be brought to its burial place on the highest point in eastern Nova Scotia by members of the Bell estate. There it will be laid away in its lofty look-out with a simple ceremony and to the singing of Robert Louis Stevenson's requiem:

"Under the wide and starry sky
"Dig the grave and let me lie;
"Glad did I live and gladly die;
"And I lay me down with a will."

Messages of condolence received here today, included the following: From William Howard Taft, chief justice of the United States of America; James J. Davis, secretary of labor; New York American Society of Civil Engineers; American Institute of Mining Engineers; American Society of Mechanical Engineers; American Institute of Electrical Engineers; and United Engineers Society, representing the engineering profession in America.

Messages were also received from Lord Byng, of Vimy, governor-general of Canada and Lady Byng.

DEATH RATE FOR ADA AND COUNTY AT LOW FIGURE

Ada's death rate recently has been comparatively small, according to local undertakers.

There have been more deaths during the first seven months than during the same period last year, but the increase is only in keeping with the growth of the population. It was pointed out.

Sickness has also been on the decline. Only a few cases of contagious disease have been reported in Ada and community. Bad colds are the chief ailment, local physicians assert. Most of the deaths of the community are among children.

PRECINCTS ARE READY TO HOLD CALL MEETINGS

County Chairman Seeks Certified Delegates For County Meet.

LOCAL WARDS ACTIVE

City Precinct Leaders Get Their Quotas for Convention.

Announcement today of meeting places for all wards of the city completed arrangements, locally, for Democratic precinct conventions throughout the county tomorrow in preparation for the county convention at the court house here August 8.

Call for both precinct and county conventions was sounded Monday by Robert Wimble, county chairman.

Election of delegates to the county conventions next week will be principal work of the precinct meetings. Basis for representation is one delegate for each 50 votes or major fraction thereof cast in each precinct for Scott Ferris for U. S. senator in the general election of 1920. A precinct with less than 50 votes gets one delegate, regardless.

In his statement early this week to precinct chairman, Wimble declared "it is the policy of the present administration that each precinct be represented by persons residing therein." The county chairman also stated that "if proxies are sent to the county convention, please see to it that the persons holding these proxies are residents of your voting precinct."

Chairman Busy.
Calls for precinct meetings in Ada tomorrow were issued this morning by various ward chairmen.

Ward 1 will meet Saturday night at 8 o'clock at the City Hall, according to Chairman Sam A. McKee. This ward is entitled to 13 delegates.

Ward 2, with D. C. Abney chairman, will meet at the court house Saturday night at 8 o'clock. It will elect eight delegates.

Ward 3, headed by E. N. Jones will meet Saturday night at 8 o'clock at Pool's store. This ward is entitled to four delegates.

Ward 4, according to a call made public by Chairman J. T. Emory, will meet Saturday afternoon at 3 o'clock at the court house to select eight delegates.

Other precincts in the county, together with their chairmen and the number of delegates to which each is entitled at the county convention, follow:

- Capitol Hill, E. H. Lucas, 1.
- Allen, Forde Harrison, 5.
- Fitzhugh, H. S. Williams, 3.
- West Roff, W. W. Williams, 3.
- East Roff, A. J. Bullock, 4.
- Knox, B. B. Hampton, 1.
- Lovelady, J. F. Jared, 1.
- Bobber, Picas Robert, 1.
- Maxwell, E. E. Sutton, 2.

- Owl Creek, H. E. Lovelady, 1.
- Lula, A. N. Harbin, 1.
- Sunshine, G. A. Pitt, 1.
- Daggs, I. M. King, 2.
- Stonewall, G. W. Carttett, 4.
- Lula, J. E. Hall, 1.
- Steedman, John Edwards, 1.
- Stratford, R. Q. R. Beavers, 1.
- Roff, Ida, J. H. Sutherland, 1.
- Ada rd, C. I. Stocum, 1.
- Ada rd, Frank Vetter, 1.

China has 50,000 miles of telegraph lines.

Our Weather Man

Partly cloudy to cloudy tonight and Saturday.

TELEPHONE BELL WILL HONOR ITS DEAD INVENTOR

There will be no service on the entire Southwestern Bell Telephone system for one minute beginning at 5:25 p. m. today, according to E. A. Steanson, manager of the local plant. This is being done in memory of Alexander Graham Bell, inventor of the telephone who died yesterday at his home in Badgett, Nova Scotia.

Operators from all over the system will not recognize calls lines will be closed and no telephone bell will ring during the minute set aside for reverence to the great inventor, it was said. This includes Ada together with all cities in this state and other states served by the system.

OWEN FORCES TO MAP OUT COURSE

Wilson Club Is Invited To Attend a Conference About Walton.

MUSKOGEE, Aug. 4.—Officers of the Thomas H. Owen for Governor Club, of this city, today issued a call for a meeting on Monday night to decide whether or not its membership will support J. C. Walton as the democratic nominee for governor. Archibald Bonds, county chairman of the Owen organization stated he favored support for Walton. The Owen supporters also issued an invitation to members of the Wilson for Governor Club asking them to attend the meeting and participate in the deliberations.

HEAVY GAS FLOW DELAYS TRAFFIC

Trains Are Tied Up Near Bristow By Terrific Output of Well.

(By the Associated Press)
BRISTOW, Aug. 4.—A giant gas well, which held up traffic between Tulsa and Oklahoma City over 14 hours, is now under control and estimated to be making 2500 barrels of oil and 25,000 feet of gas daily. Trains are now running.

(By the Associated Press)
BRISTOW, Aug. 4.—A giant gas well, estimated to be making thirty million feet of gas per hour and spraying fifty barrels of oil hourly, is holding up all passenger and freight traffic over the Frisco lines between here and Kellyville, and delaying all trains between Tulsa and Oklahoma City. The well is but 150 feet from the railroad tracks and has filled the valley for more than a mile around with gas. Railroad officials fear the operation of trains would ignite the explosive gas and cause a disastrous fire.

With a large force of men at work today in an effort to shut off the well, it is thought that train service may be resumed by late this evening.

This giant well is in wildcat territory more than a mile northwest of the present Continental pool near Bristow.

Knox Man Arrested Upon Complaint of Assault on Woman

A. E. Haskins who lives west of town near Knox, was arrested Thursday by Sheriff Bob Duncan and Deputy J. B. Chapman on a complaint of assault with attempt to rape. He was in the county jail Friday and charges were being prepared by Assistant County Attorney Hugh F. Habis.

Haskins, according to a statement from a neighbor woman, entered her house late Thursday and, without warning, attacked her. The woman's husband, it was said, was in Ada employed on street work. Two children were in the house.

The woman's screams brought neighbors to the house and officers were called.

According to ancient superstition it is unlucky for a bride to choose bridesmaids who are younger than herself.

LEAGUE RUNNERS STACK UP HEAVY COUNT IN STATE

R. H. Wilson Slumps 27,000 Under Oklahoma City's Mayor in Finals.

TRAPP OVER DARNELL

George Short Will Emerge Victor For Attorney General, Belief.

(By the Associated Press)
OKLAHOMA CITY, Aug. 4.—Mayor J. C. Walton of Oklahoma City continued to gain in his lead over R. H. Wilson for the democratic nomination for governor as belated returns were received today from Tuesday's primary election. With less than 500 precincts still to be reported, Walton had a plurality of almost 30,000 votes.

John Fields, publisher of a farm paper here, was steadily increasing his plurality over George Healy, his republican opponent for gubernatorial nomination in one of the most unusual races the state has ever seen. Fields made no campaign and expended not a penny in connection with it, according to his own statement, but from the start he has been the undisputed nominee.

The vote from 1,058 precincts out of 2,837 in the state gave Fields 34,430 and Healy 4,476.

No Knees Changed.
Returns from the other precincts indicate also that the standing in no race has been altered and the lead previously established is mostly being maintained.

M. E. Trapp, lieutenant governor, seeking the democratic renomination had succeeded in obtaining a margin of more than 4,000 votes over W. M. Darnell, reconstruction league candidate, on face of returns from 1546 precincts. Dennis Flynn of Sapulpa held his lead for republican nomination for this office.

In the contest for the democratic nomination for corporation commissioner Campbell Russell, incumbent, showed a burst of speed and in returns received since last night had cut down the long lead of Frank Carter by almost half. The count from 1,669 precincts showed Carter 39,101 and Russell 31,680. Cash Cade still lead the field of republicans for this nomination.

(By the Associated Press)
OKLAHOMA CITY, Aug. 4.—A plurality in excess of 30,000 on final returns from Mayor J. C. Walton of Oklahoma City, democratic nominee for governor of Oklahoma, was indicated today as the unofficial count of the ballots in Tuesday's primary neared completion.

Walton, the choice of the anti-Ku Klux Klan and farmer-labor forces of the state, had more than 27,000 votes over R. H. Wilson, state superintendent of public instruction and alleged "invisible empire" candidate, with returns missing from 603 out of the 2,837 precincts in the state.

The vote: Walton 90,816; Wilson 63,779; Thomas H. Owen 51,772.

John Fields of Oklahoma City, the republican nominee who will meet Walton at the polls in November, was assured of a majority of around 12 to 1.

Later returns from the fifth congressional district gave Representative T. A. Chandler, republican of Tulsa, a lead of 11,937 votes in his sharp contest with B. B. Schwabe of Nowata for the republican nomination.

Six of the eight members of the Oklahoma congressional delegation appeared assured of renomination.

Manuel in Tail Spin
Manuel Herrick of Perry, self styled aerial daredevil representative from the eighth district, was the only one whose defeat was sure. His ambition to return to the national capitol to continue demonstration of his aerial daring terminated in a tail spin.

Miss Alice Robertson, republican of Muskogee, the only woman member in the present congress again meet W. H. Hastings, democrat of Tahlequah, whom she defeated for representative in 1920 in the second district.

Among the candidate for nomination for state offices Mrs. Mabel Bassett of Sapulpa seeking the democratic nomination for commissioner of charities and correction, stood out. She was leading William Matthews, incumbent, by 1,000 votes.

BIBLE THOUGHT OF TODAY

BEGIN THE DAY RIGHT:—Cause me to hear thy loving kindness in the morning; for in thee do I trust; cause me to know wherein I should walk; for I lift up my soul unto thee. —Psalm 143:8.

THE DEMOCRATIC SITUATION

The Democratic party of Oklahoma is face to face with a proposition without precedent. The nominee for governor made his race on a platform adopted by a convention in which there was little sympathy for recognized principles followed by the party heretofore. Walton won because of the division of the conservative vote between Owen and Wilson. Their combined vote is considerably in excess of his, indicating that the majority of the voters of the party is not in sympathy with the nominee. However, his nomination is an accomplished fact and now comes a problem of readjustment.

A great deal depends on the action of the precinct and county conventions which will choose delegates to the state convention where the platform will be written upon which the fight will be waged for the ticket at the November election. If Walton's friends control these of course the platform will be written according to their views, but if his opponents control these conventions and write a platform in which the planks of the Shawnee platform are ignored how will matters stand? It will be up to Walton to choose whether he will stand on the platform of the regular convention or stay with the Shawnee demands. On his decision will depend the course of the campaign and until there is something definite along this line the Democratic party is considerably at sea. The whole question is whether Walton will attempt to reconcile the conservative and radical elements of the party and his success in this endeavor. If the party is to win in November it must present a united front. Meantime members of the party should not be hasty about forming their judgments.

Caustic criticism has had no effort on the farm bloc in congress. The senators and representatives forming this group continue to stick together and make their influence felt. What worries the old time leaders is that these men put the interests of their constituents above the orders of the party bosses and caucuses and can't be depended on to fall into line when the whip cracks. This is the first time in the history of congress that such a bloc existed openly. Of course special interests have controlled groups but this was a secret matter and the members composing such groups very careful to cover their tracks.

It is reported that a vote on the tariff bill will likely be taken by the senate on August 17. However, that will not end the matter, for it will probably take the conference committee three or four weeks to iron out the differences in the measure and send it back to the two houses. After they adopt the final revision as presented by the committee it will go to Harding for his signature. The people will pass judgment on it in November.

The primary demonstrated the fact that Ada has outgrown four voting boxes. It is a physical impossibility for any set of election officials to handle the heavy vote now cast here with any sort of dispatch. For an election or two after statehood there were two boxes in Ada, then one was placed in each of the four wards. The natural growth of the city and the giving of the franchise to the women has run the voting population up to big figures.

The railroad labor board was created to settle differences between the companies and the employees. However, neither side has been any too ready to abide by its decisions, the idea being apparently to accept as much as they wanted and reject the rest. That will never get very far. Both sides must obey if the board is to be of any assistance in keeping peace.

Now that the election is over the citizens of Pontotoc county should begin to think about the township and county fairs. With the favorable season of this year the best line of exhibits ever seen here can be displayed and the county given some valuable advertising. We hope to see much interest displayed in this matter and the best fairs on record pulled off.

Our fates may be pre-determined but that is no reason why a fellow should refuse to put forth his best efforts. Perhaps it was not fate but his own lack of hustling that holds him down. At all events a tussle with grim adversity is better than acknowledging defeat at the outset.

Apparently Senator Reed of Missouri has won the nomination for another term. This is probably due to the fact that people soon forget the record of a politician and just word for things when a campaign is under way. Two years ago Reed would have come off badly worsted.

Mrs. Mabel Bassett has apparently won the Democratic nomination for commissioner of charities and corrections. Mrs. Bassett is a lady who refused to stay put when defeated. W. D. Matthews defeated her twice for this office but the third time he proved the lucky number in her case.

"OH, THOSE WERE THE HAPPY DAYS!"

The Herald of the Press

The Only Girl

(McMaster News-Capital)

When you go back to the old home town, after being away many years, one of the most startling discoveries is the change wrought by time in fellows you once knew as town drunkards, loafers, or bullies.

A fellow who in his early twenties was a no-good—never he worth his salt—stems up briskly and wrings your hand. You learn that he is in business for himself now and "doing" fine.

He is restless. You guess that he is anxious to confide. Then the great and important secret comes out. He met "the only girl" and married her. Proudly he opens the back of his watch, shows you her picture—also the things that are running around the house besides the fence. She put him to work.

A little farther down the street you meet the fellow you once knew as the town bully.

There is a sad, reminiscent vacancy in his eyes, such as Napoleon must have had at St. Helena. The system has caught him. He is indignant, obviously, but in such a timid way that you wonder if he went in for preaching.

Then his great secret comes out. He, a man, met "the only girl" and married her. He doesn't tell you, but you surmise that she has him well tamed.

Another familiar face looms up. You cannot place him until you realize that it is because his red nose, bleary eyes and finger tremble has disappeared.

The town drunkard! You wring his hand, comment on how well he is looking. Then you ask him what he's going to get "the staff" these days.

"Oh," he boasts, puffing up like a fresh blister, "I never touch the old hardware any more. Haven't had a drink for so long I suppose three fingers of it would make me sick. I quit when I met the only girl. We're married now. I voted dry."

The good influence of good women is about the finest thing in life. Poverty is a sad handicap. So is ill health. So are thousands of other forms of misfortune.

But, when all is said and done, the worst kind of bad luck that can happen to a man is not meeting "the only girl"—or, in meeting her and not getting her.

Our Complicated Civilization

(Tulsa World)

The denizens of our chief city are getting an object lesson in the beauties of the simple life, and the uncertainties of what science and invention have brought us to, in the way of substitutes for nature. The New York Times ever voices the fear that the metropolis is approaching the fate of the "one-hoss shay." Water mains burst, floods tie up the subway, short circuits in power houses or in motor boxes of the trains tie it up more seriously; the cables of Brooklyn bridge shift and slide. It begins to seem as if New York City will have to be sent back to the factory for repairs; mere garage service is hardly able to keep it going.

Yet the average citizen remains unworried. He still crosses the bridge and rides in the subway, and expects the water to flow when he turns on the tap. He goes away for vacation to a rustic spot where water has to be carried him and he still expects to get a good shower and suspension bridges and power houses to break down from which the city is dependent for its water supply. He is a little more careful to take the subway when it rains, but he still expects to get a good shower and suspension bridges and power houses to break down from which the city is dependent for its water supply.

Mechanical town

Admirers of the simple life tell him that his wants are too many; that he would be happier without these vast and complex machines that determine his life, that soon sometimes to be getting beyond his comprehension and threatening to bring him to a disaster which he can neither foresee nor understand. But the simplifiers make few converts. We like our mechanical civilization; we should rather run the risks of undisciplined metropolitan disaster than die of old age among the katydids. We won't know where we are going, but we insist on being on our way.

Klan Not Voting as a Body

(Hugo News)

The Ku Klux Klan is not in politics. This announcement is made by the Oklahoma Herald. The Herald is the official organ of the Klan in this state. In the last issue of this paper it stated that every Klansman will vote as his own conscience dictates and that no effort has been made to concentrate the vote of Klansmen as a body on any one candidate. This announcement, which can be taken as official, will set at rest many stories and much anxiety on the part of candidates and politicians some of whom had hoped to corral the Klan vote and others feared that was just what the Klan would do. It is understood that the question of endorsement of candidates was discussed in official circles of the Klan and that the decision was against such action.

Political Announcements

The News is authorized to announce the following as candidates for the offices named, subject to the action of the Democratic primary.

State Offices

HARD SURFACED ROADS POPULAR

Federal-State Projects Now Cover 550 Miles in Oklahoma.

(By the Associated Press)

OKLAHOMA CITY, Aug. 4.—Between the individual counties of the state of Oklahoma and the federal government, something more than \$15,000,000 has been recently spent or is in prospect of immediate disbursement, having already been allotted, in the building of nearly 550 miles of hard-surfaced roads and twelve bridges. These figures are the result of an unofficial summary of road building made recently by the federal roads bureau at the state capitol here. Projects included in the summary are already completed or in course of construction.

Future road and bridge building is now under consideration with the planning of twenty-three more projects, which will call for an expenditure of about \$10,000,000 additional, the summary pointed out.

In this category, the counties have asked for federal aid in the sum of \$1,169,226.29.

Of the \$15,000,000 already allotted, the federal government allowed aid to the amount of \$6,338,000. The counties provided the remainder, about \$9,000,000. The state allotted only about \$300,000. Federal aid is available on only about seven percent of state highways, and must be spent, according to the federal aid law, not more than three-sevenths on a primary system and four-sevenths on a designated secondary system of roads.

Following is the list of completed projects and those under construction for which federal aid has been allotted.

Completed projects:

Four Miles in Pontotoc

Four miles of gravel road in Pontotoc county; the Ames bridge in Pittsburg county; five and nine-tenths miles of concrete road in Osage county; eighty-five hundredths of a mile of pavement in Washington county; the Peño, Shady Point and Wister bridges in LeFlore and McClain counties; a bridge in Pushmataha county; thirty-seven and six hundredths miles of gravel road in Muskogee county; thirteen and five-tenths miles of pavement in Oklahoma county; twenty-one and seventy-eight hundredths miles of gravel road in McIntosh county; six miles of gravel road in Comanche county; four and eight-tenths miles of gravel road in Garfield county.

Some Not Complete

Projects now under way but not completed:

The Newcastle bridge in Cleveland and McClain counties; forty and seven-hundredths miles of pavement in Tulsa county; the Calvin bridge in Hughes county; the Union City bridge in Canadian and Grady counties; fifty-seven and fifty-five hundredths miles of gravel road in Choctaw county; fifteen and nine-

tenths miles of gravel road in Carter county; fifty-one and thirty-eight hundredths miles of gravel roads in McCurtain county; fifty-five and two-four hundredths miles of gravel road in Bryan county.

Five miles of gravel road in Rogers county; one mile of gravel road in Jackson county; thirteen and nine-tenths miles of gravel road in Marshall county; two bridges in Muskogee county; twenty-seven and eight hundredths miles of asphalt pavement in Okmulgee county; two miles of gravel road in Muskogee county; six and twenty-two hundredths miles of gravel road in Nowata county.

AMERICA WANTS SAFER BALLOON

Germany Remembers Late Disasters and Makes New Zeppelin.

(By the Associated Press)

BERLIN. — Facing the fact that memories of the R-38 and Roma disasters still are freshly in mind throughout the world, Germany's builders of the new Zeppelin intended for commercial use in the United States are prepared to exhaust every resource at their command in producing the "last word" in aircraft. The Zeppelin company stands ready to "stake its reputation" on the project, according to an American official who has figured prominently in the negotiations for the contract recently signed here.

This officials pointed out, however, that the undertaking strikes no awe in the hearts of the constructors, since they already have built larger ships than that now under contract. In fact, he said, they are equipped to produce a Zeppelin of 100,000 or even 120,000 cubic meters, as compared with the ship of 70,000 which they have agreed to build for America.

Yet the builders recognize the possibility of elements hitherto uncontrollable entering into construction of this nature. It is said, and will endeavor to profit by careful study of the fate which befell the two giant airships produced for the United States the past two years in England and Italy. Particular attention will be devoted to the question of the manifold stresses to which a dirigible is subject. This problem involves multitudinous technicalities as to design and the extreme testing of material. In these departments, it is felt in American circles here, the Germans have reached an outstanding stage of advance.

Submitted to Navy Reception of the ship having been delegated to the naval department of the United States, its design will be submitted to that division of the government for approval. In addition, an officer of the department will be present at Friedrichshafen as an inspector throughout the Zeppelin's construction. This duty has been assigned to First Lieutenant Garland Fulton, U. S. N., who is here in connection with the contract. First Lieutenant R. G. Pennoyer, U. S. N., also has been in Berlin during the negotiations, both of these officers having been on duty in connection with the R-38.

It is estimated that 15 months will be required for construction of the ship. No specific time of delivery has been fixed, this being dependent upon a number of contingencies, not the least of which are the weather conditions. The Zeppelin probably will be completed by next fall, making it likely that delivery will follow during the ensuing summer. Lakehurst, N. J., has been selected as the place of delivery.

The contract provides that the ship will fly to the United States entirely under German responsibility and manned by a German crew. It has not yet been decided, at this early stage of the project, whether any American personnel will accompany the Germans on their trans-Atlantic flight.

The new Zeppelin will require a crew of about the same number as that which manned the R-38. In this connection it is pointed out here that a large part of the United States naval department's air personnel was lost in the accident to the R-38 while the Roma disaster proved a similar loss to the army's air forces. Thus American manning of the new ship will entail training of an almost entirely new crew.

No provisions has been made in the contract for the United States to share in the monetary loss, should an accident occur to the ship before delivery. Since the Zeppelin takes the place of costs due the United States in consequence of aerial losses in the air, it is noted, the fixed amount remains due until such time as the ship is actually turned over to the American government.

Child Hooked by Cow ARDMORE, Aug. 4.—There is a moral to this tale—stand back or you may get hooked. A small child, Paul Etkern, Jr., patted a pet cow. She swung her head at a fly, catching the boy under the chin with one of her horns. The horn narrowly missed the jugular vein, but Paul will recover, doctors say. The boy was thrown several feet, and caught by his father who was standing nearby.

BEAUTY WEDDED AT BEDSIDE OF FATHER, WITH DOCTOR AND NURSE WITNESSES

Mrs. Beulah Benedict Scranton.

(By Central Press) CLEVELAND, OHIO, Aug. 4.—With an operating table as an altar, a doctor and nurse for witnesses, an odor of chloroform supplanting that of the usual bridal bouquet and the groom's father watching from his cot, Joseph Scranton and Miss Beulah Benedict were wed in a hospital here.

The sick man, Col. Walter Scranton, former president of the Lackawanna Steel Company, was about to undergo an operation. He requested that his son and Miss Benedict be united before he went under the scalpel.

They hurried here from Ger-

gonnes, Vt., in answer to Colonel Scranton's request secretly and friends in Vermont knew nothing of the romance until the marriage was announced.

Scranton is forty-one. His bride is fifteen years younger. He is a descendant of Moses Scranton, founder of the city of the same name in Pennsylvania.

Young Scranton has been visiting the Vermont town for longer than a year, but his old home was there and there were more than sentimental reasons for his pilgrimages.

Mrs. Scranton, originally, was from Chicago.

Trainmen Are Fired Upon After Notices Warn Coal Carriers

(By the Associated Press) CARBONDALE, ILL., Aug. 4.—A coal train running from Padukah Ky., to Carbondale Ill., on the Illinois Central railroad, was fired upon near here last night, the train crew reported, following the posting of signs in scattered sections along the railroad reading: "Notice, railroad men, quit hauling scab coal."

The train crew, including the engineer, fireman and brakeman, said they stooped beneath the windows of the cab while the shots were pattering against the cab from both sides of the train. Coal from non-union fields of western Kentucky is being transported on the Illinois Central via Padukah and Carbondale.

Today's Historical Event: Crown Point, N. Y., a strong French fortress, was abandoned to the British under General Amherst on August 4, 1759.

Wozencraft's drug store the home of personal service. Phone 664. We deliver. 8-4-1mo

J. L. Jeter has moved his stock of groceries from Stonewall to Ada and is located in the 200 block on East Main. He expects to bring his family here soon.

"Health Service Station." Thompson Drug Store, Phone 10, We Deliver. 6-23-1mo

Paul Waner, local southpaw pitching ace, is with the Gainesville ball club this summer. He will be in Ada to pitch for the locals in remaining games of the season, however.

Special for Saturday—Steak 2 pounds for 25 cents. Beef roast per pound 10 cents. Pork barbecue—Katy Meat Market, 320 East Main. 8-4-1t

Dr. H. Barnes, whose trial was set for this morning in the city court, was adjudged guilty when he failed to arrive and his bond was forfeited. He was charged with possession of liquor.

We loan you a battery while repairing yours. Kit Carson. Phone 2, 325 East Main. 1-2-1mo

Capt. S. H. Hargis left today for Ringling, Oklahoma, where he will visit 15 days before going to Gainesville, Texas, to spend some time the guest of his daughter. On his return he will visit in Lindsay, Chickasha, and El Reno.

Miller Bros. Tailors, Cleaners and Hatters. Phone 422. 4-10-1m

E. P. Patterson and wife of Oklahoma City have been visiting the former's parents, Mr. and Mrs. P. H. Patterson of this city for several days. They are now in Vanoss visiting Mrs. Patterson's parents. They were accompanied to Vanoss by Clara and Bonnie Patterson.

Are you taking advantage of our free delivery service. Phone 10, Thompson's Drug Store. 6-23-1mo

Efforts of city water department employees to make final connections and adjustments on the new pipe line are expected to be rewarded today with the first test. Reports from the crew working on the line are that practically all adjustments have been completed.

We deliver anything you order—Thompson's Drug Store, Phone 10. 6-23-1mo

Ray Vaughan, pastor of the Christian church at Halleyville, and who has recently been attending college at Enid, is leaving this afternoon for a short stay at his old home in Hale, Missouri, following a visit with his uncle, T. E. Vaughan, and family of this city.

McCarty Bros. can fix that old tire or tube. Phone 855. New location 116-18 S. Townsend. 7-7-1mo

Reports from over the county are to the effect that the rain of last Thursday was general. Many crops were benefitted by the additional moisture, especially after the intense heat of the past few days. Garden plants will benefit by the rain, it is reported. Temperatures today were lower than for the past week.

Special for Saturday—Steak 2 pounds for 25 cents. Beef roast per pound 10 cents. Pork barbecue—Katy Meat Market, 320 East Main. 8-4-1t

Plans for the memorial hall to be built on South Townsend avenue and dedicated to the Ada post of the American Legion will be returned to the city this week after being in the hands of architects for several days for minor changes. This will make it possible for city commissioners to proceed with letting a contract and getting the building work started.

Reader Takes Newer Form of Iron—Feels Years Younger

"Six weeks ago I saw a special offer in the paper telling how thousands of people grow old in looks and energy long before they are really old in years, because, as examinations by physicians have shown at enormous number of people do not have enough iron in their blood. I have been taking Nuxated Iron for two weeks; the results are simply astounding. The roses have come back in my lips and cheeks, and I can conscientiously say that I feel ten years younger."

The above is a typical hypothetical case showing the results that have been achieved by a great many people since we started this "satisfaction of money back" offer on Nuxated Iron. We will make you the same guarantee. If, after taking the two week's treatment of Nuxated Iron, you do not feel and look years younger, we will promptly refund your money.

Call at once for a bottle of Nuxated Iron at Gwin & Mays or any other good drug store. (Adv)

SHOPCHAFT DELEGATES WILL MEET PRESIDENT

WASHINGTON, Aug. 4.—Representatives of the striking railroad shopcrafts on the Southern Railroad will meet in Washington tomorrow with H. W. Miller, vice-president in charge of operations of the system, to consider proposals for settlement of the strike on the basis of suggestion by President Harding to the executives of the railroads.

SEE MUST ENFORCE
FEDERAL TAX LAWS
IN 83 DISTRICTS

Mrs. Mabel Walker Willebrandt

as one of the six assistant attorneys general of the United States must enforce all federal taxation statutes other than customs in eight-three federal districts. The prohibition act and traffic in liquor, the insurance act, federal employees' compensation and pension matters, the pure food and meat inspection acts and the administration of prisons all come under her jurisdiction.

NOTICE TO PROPERTY OWNERS

Notice is hereby given that the assessment charges fixed by the Board of Appraisers against lots and tracts of land within Street Improvement District No. 10, same being a portion of West Seventeenth street established by resolution on May 3rd, 1922, were reviewed, revised, corrected and confirmed by the Board of Commissioners of the City of Ada, on the 1st day of August, 1922.

According to law, property owners liable to assessment for the improvement as set out in Ordinance No. 485 passed and approved on August 31st, 1922, may pay said assessments on or before August 31st, 1922, without interest. All payments shall be made to J. C. Deaver, City Clerk and Commissioner of Accounting and Finance in the City of Ada, Oklahoma.

Below is a statement of the property and the amount of assessments.

Dated this 1st day of August, 1922.

(Seal) J. C. DEEVER,
City Clerk and Commissioner of
Accounting and Finance.

REPUBLICAN LEADER DOESN'T LOOK LIKE CONGRESSMAN IN THIS OUTFIT

House Leader F. W. Mondell, as he doesn't look in Washington, at the dedication of the Hoback Canyon highway, Rock Springs, Wyo.

Republican House Leader F. W. Mondell recently assisted in the dedication of the Hoback Canyon highway between Rock Springs, Wyo., and Yellowstone Park. His colleagues wouldn't have recognized him speaking from a truck with his trousers tucked in his heavy boots. But Mondell didn't care.

'BOY ORATOR' MAY RETURN TO FAME

Tramp Soap Box Speaker Out for Election To U. S. Congress.

LINCOLN, Neb.—After political inactivity of more than 20 years, a man who once gained for himself a national reputation as "The Boy Orator of 1896," today is standing on the threshold of his life's ambition and may obtain a seat in Congress, as representative from the first congressional district of Nebraska, to fill a vacancy caused by the resignation of Congressman C. F. Reavis. This hopeful is R. H. Thorpe, one time tramp soapbox orator and idol of the "Good-bul" republicans of another day.

Oldtime "patriots" of the republican party in almost the entire central west will recall Thorpe, the "Boy Orator of 1896." His history is perhaps without parallel in political annals of the west.

In the primary election here on July 18, Mr. Thorpe, was pitted

against six other candidates for the regular term nomination of the republican party. Although he lost this nomination he won the nomination for the short or vacancy nomination, as republican congressional nominee against three other candidates. He elected in November against the democratic nominee W. C. Partridge, also of Lincoln, Mr. Thorpe will serve as congressman a bare four months.

While a boy, Thorpe, made a study of the tariff and money questions of the day and debated in school and public forum on the issues arising therefrom. In the years following the panic of 1893, young Thorpe, then about 21 years of age, found himself one of the 4,000,000 men out of employment, and went out in a state where Populism and the Free Silver issues were rampant soon set him after another job. He became a tramp, at all times ready to voice his protest against existing economic conditions. The soap box dias found his steady tenet and his oratory soon won him a name in the west.

Gold standard republicans proclaimed him the champion of their cause. Young Thorpe was received with acclaim in every city he made his appearance. The newspaper file of leading Nebraska newspapers of that day are filled with editorial comment concerning the prowess of Thorpe and the manner in which he routed his opponents. He made

157 addresses in Nebraska in 1896. Later he moved on to Ohio, Indiana, Illinois, Kentucky and Missouri, stumping each state as he travelled. For a while the lecture platform claimed his services, but his health failed him 15 years ago, he gave up lecturing and since has been out of public life.

The ancestors of Mr. Thorpe were of Revolutionary stock. His great, great grandfather crossed the Delaware with General George Washington and participated in the battle of Trenton. His grandfather, Daniel Thorpe, came to Indiana before that area became a state, and is reported to have been one of the founders of Butler college.

WOULD SHUT DOWN AS WORKS

"My stomach has been so filled with gas for the last three years that I felt I could pretty nearly supply our town, I also had frequent pains in right side in region of the appendix. Doctors didn't help much. One day my neighbor told me about what Mayr's Wonderful Remedy had done for him and I got a bottle of our druggist. I can say that it will do all and more than you claim for it." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and cures practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Gwin & Mays and druggist everywhere. (Adv)

A Tonic in Hot Weather

The weakening effect of the depressing heat lowers
Vitality. GROVE'S TASTELESS CHILL TONIC Re-
stores Energy, Strengthens and Fortifies the System to
withstand the intense Summer heat. A big appetite
and sparkling eyes are the best proof of its tonic value.
You can soon feel its Strengthening, Invigorating Effect.

To the Voters of Pontotoc County:

The issues of this campaign were tightly drawn. I did
not wade out into the main currents of the political stream.
As a democrat I shall content myself with your choices in
this primary. I am satisfied with the support I received,
and take this privilege to thank my many friends for their
earnest and honorable efforts to nominate me.

I again thank you,

A. T. WATSON

The World's Greatest Baking Powder

MINORITY ASK ACCEPTANCE OF

(Continued from Page One)
ment, seeking a site for great ni-
trate plant, turned to Muscle Shoals
and the erection of nitrate plant
No. 2 was started January 8, 1918.
It began operation October 25 of
the same year and before the ar-
mistice was signed several thousand
tons of ammonium nitrate was turn-
ed out. Operations were suspended
after the armistice, but work was
begun on Wilson Dam and this work
continued until May 1, 1921, when
the appropriation was exhausted.
The dam then was said to be about
50 percent complete.

Three Mixing Plants.
Three great concrete mixing
plants, one of them said to be the
largest in the world, was construc-
ted and operated for the building
of the Wilson Dam. Quarries were
opened; residences for employees
were built, with office buildings;
schools, assembly halls and com-
plete sewage, lighting and water
systems. A fleet of barges and
dredges were provided to bring
sand and gravel from the river
channel below the dam. Wharf and
loading facilities were construc-
ted, with a line of railroad three
miles long extending from the wharf
to the dam site.

All of this equipment was put in
"stand-by" condition May 1, 1921.
On one siding 45 locomotives now
stand covered in grease paint.
Wilson Dam, completed, would be
the largest in volume of material
used of any single construction pro-
ject in the United States, army
engineers say. From river bed to
top driveway over the dam, the
height would be 133 feet. The avail-
able powthead of water impounded
above the dam would be 85 feet.
The length of the dam would be
4,600 feet.

Plans Discarded.
The original plans for the work
called for the installation of tur-
bines and electrical horsepower,
more than is now represented in
the combined hydro-electric develop-
ments in the states of Alabama,
Georgia, South Carolina, North Car-
olina and Tennessee, according to
army engineers.

Dam No. 3, proposed in Mr. Ford's
bid, would be one mile and a
quarter in length, fifty feet high,
and would have an available water-
power head of 42 feet. There would
be installed, under the Ford plan,
turbines, electric and electric gen-
erators in this dam capable of de-
veloping more than 250,000 electric
horsepower.

This dam would be 17 miles
above Wilson dam and navigation
through the two dams would be
affected by means of two locks in
Wilson dam and one lock in Dam
No. 3.

Negotiations between the govern-
ment and Mr. Ford have been in
progress for several months. His re-
cent trip with Thomas A. Edison to
Muscle Shoals was for the purpose
of making a re-survey of the prop-
erty at the suggestion of govern-
ment officials with a view of clar-
ifying and reconciling, if possible,
differences in Mr. Ford's estimates
and those of army engineers con-
cerning completion of the work. The
greatest complication is understood
to have been the difference in esti-
mates of the cost of completing
Wilson Dam and the construction
of Dam No. 3.

Tahlequah.—Although crops here
are not yet showing signs of
severe suffering on account of the
long-continued heat and drought, it
is predicted here that unless rain
comes soon damage to growing
crops will result seriously.

PRICES ON CRUDE CUT BY MAGNOLIA COMPANY FRIDAY

(By the Associated Press)
DALLAS, Aug. 4.—A reduction of
15 cents a barrel on Cement, Okla.,
crude and a cut of 25 cents a bar-
rel in prices of other crude oil ef-
fective today, was made here by the
Magnolia Petroleum company.

New prices are: Electra, Burk-
burnett, Henryetta, Morna, Ranger,
and Stephen district, Strawn and
Thrall, Texas crude, \$1.50 a barrel;
Augusta, Kansas, Yale, Comanche,
Cushing and other Oklahoma crude,
\$1.25 a barrel, and Cement oil
crude 85 cents.

Eighty-five cents price for Cement
crude is within ten cents of the low-
est record for that oil, according to
Magnolia headquarters here. On
June 4, 1921, the price fell to 75
cents. Subsequently it advanced to
\$1 and recently began to decline in
connection with the reduction of
other crudes. Full storage tanks
was given as the reason for the low-
ering prices.

A SMILE A DAY

Pome of Summer Desires
I want to go out into the woods for
awhile
And rub my nose in the dirt—
I want to go out where men can
wear
Just trousers and undershirt.
I want to sit down with hook and
line
And wish and wish and wish—
I want to be out where one can
smoke
And fish and fish and fish.
—Adam Breede in the Hastings,
Neb., Tribune.

Back to Methuselah
North: "Did you attend the cen-
tennial celebration?"
West: "No but I hope I be pre-
sent at the next one."

Accept No Substitutes
A small boy entered the gro-
cery store and demanded in shrill
tones:

"Ma wants two pounds of butter
exactly like what you sent her last
week. If it ain't exactly like that,
she won't take it."
"Some grocers," remarked the
proprietor of the store blantly,
turning to a group of onlookers,
"some persons in my business
don't like customers who are par-
ticular, but I delight to serve them."

"Be sure you get the right kind,"
reiterated the boy, while everybody
listened. "A lot of Pa's relatives
are visitin' at our house, and Ma
doesn't want them to come again."

Whooff
A patient escaped from an in-
sane asylum, was at last discov-
ered in earnest conversation with
a colored guard at a military camp.
By means of signs behind he mani-
fested his back, the attendants were
at last able to capture him. Then one
of them happened to glance toward
the guard and demanded in as-
tonishment:

"Why man, what's the matter with
you? You're trembling and the
sweat is pouring off your face."

"Yassir," gulped the negro.
"Boss, after dat feller been talking
to me five minutes I knowed one
of us was crazy, and now I've found
out it's him, I'm so relieved—so
relieved!"

G. O. P. NOMINATE C. T. BARNEY FOR DISTRICT JUDGE

In Tuesday's primary the Repub-
licans of Pontotoc county nominated
C. T. Barney as candidate for dis-
trict judge. It stated that the vote
stood 330 for Barney and 300 for
U. G. Winn.

This is about the first time since
statehood that the Republicans of
this county have had much of a con-
test in the primary. Usually the
names that go on their ticket are
selected at a convention or else put
on the ticket without opposition,
but this time they displayed con-
siderable interest in this race.

SENATE ASKED TO PROBE CRITICAL NEWSPAPERS

(By the Associated Press)
WASHINGTON, Aug. 4.—Frank A.
Munsey, owner and publisher of the
New York Herald, was charged to-
day in the senate by Senator Good-
ing of Idaho, chairman of the re-
publican agriculture bloc, with
fighting the administration tariff
bill in the interest of his invest-
ments in Europe.

Senator Gooding also demanded
that the senate should investigate
the St. Louis Globe-Democrat and
other newspapers which he said
were most critical of the tariff
measure.

WILKINSON CONFIDENT MINES WILL BE OPENED

(By the Associated Press)
MUSKOGEE, Aug. 4.—Before
leaving today for Cleveland, Ohio,
to attend a joint conference of rep-
resentatives of the United Mine
Workers of America and Operators,
President John Wilkinson, head of
the United Miners in Oklahoma,
Texas and Arkansas, stated he was
confident the conference would
serve as a basis for negotiations
that will terminate in the mine
strike being ended in time to per-
mit the plants to eropen at an
early date.

2117 Bu Klux Cars

McALESTER, Aug. 4.—According
to what purported to be an actual
count, 2117 motor cars were at a
meeting of the Bu Klux Klan in a
pasture on a ranch near here last
week.

C. J. WARREN NOT MOVING FROM ADA

In Thursday's paper it was stated
that C. J. Warren was preparing to
leave Ada and locate in California.
This item was phoned to the News
by some party whose identity is un-
known and its truth was taken for
granted. However Mr. Warren states
that there is no ground whatever
for such statement. He has been in
business at Ada for the past 21
years and expects to continue here.
He is planning a vacation trip to
California but has no intention what-
ever of moving there.

Reed's Nomination Hailed As Victory Against Dictators

(By the Associated Press)
MADISON, Wis., Aug. 4.—"The
nomination of Senator James A.
Reed in Missouri is another signifi-
cant victory for the people," said
Robert M. LaFollette, senator from
Wisconsin, in a statement today. "It
reflects the resentment of the voters
against bosses and party domina-
tions."

Senator Reed's conspicuous posi-
tion against the League of Nations
was an issue in the campaign and
his successful fight indicated the
approval of the voters of Missouri
of his stand on this question, the
statement said.

German Banks Rush Cash Into Holland Fearing a Penalty

(By the Associated Press)
PARIS, Aug. 4.—German bank-
ers within the last 24 hours have
transferred to Holland between 60-
000,000 and 70,000,000 French
francs which had been on deposit
in American and other foreign banks
in Paris, the Associated Press
learned this afternoon. The money
was hurriedly withdrawn, it is said,
when it was indicated it might be
confiscated by the French govern-
ment as a part of the penalty to
be imposed upon Germany for her
refusal to pay the 2,000,000 gold
marks now due on the private
debts contracted with the French
before the war.

GIRL STENOGRAPHER IS NEW POSTMISTRESS

DIGHTON, Aug. 4.—A stenog-
rapher, Miss Grace Barnard, is acting
postmaster here but she does not
want the job.

Former postmaster Stevens was
found dead more than a week ago.
The coroner pronounced it suicide.
Since that time his office has been
vacant, with Miss Barnard acting as
postmistress. This is a fourth-class
postoffice and the earnings are
small.

In spite of Miss Barnard's reluc-
tance to continue in her position
because of the small pay, citizens
say they are entirely satisfied with
the service she is giving.

Goodbye Boils!

S. S. S. Will Rid You of Boils, Pimples,
Blackheads and Skin Eruptions.

A boil is a volcano—your blood is
so chock full of poisons that they
"boil" out into a boil. That's the
"boiling up" and you desire to get
completely by the use of S. S. S., one
of the most powerful blood-purifiers
known to science. S. S. S. has been
the test of time. The power of its
ingredients is acknowledged by au-
thorities. Its medicinal ingredients are
guaranteed to be purely vegetable.
Right off, it clears the skin of
pimples, boils, blotches, blackheads, ec-
zema, rash and other skin eruptions,
and does it thoroughly. It drives out
of the blood impurities which cause
rheumatism, makes the blood rich and
pure builds up lost flesh. It helps to
manufacture new blood cells—one of
its secrets. S. S. S. is sold in
all drug stores, in two sizes. The
larger size is the more economical.

Are you "up to the neck" in blood im-
purities? S. S. S. is one of the greatest
blood-purifiers known. Try it.

Ice Cream

You may not be able to go to Colorado, but you can
afford to eat cool refreshing foods at home.

There is nothing that will produce solid comfort, in-
duce good health and make one feel fit for the task at
hand in a better way than a dish of Santa Ice Cream.

The business man or woman can do himself no bet-
ter turn than refreshing the tired body in the hot after-
noons with ice cream.

Don't worry about vacations. But do take care of
your health by eating plenty of cool foods, more particu-
larly foods that refresh and build.

You can depend on Santa Ice Cream.

Manufactured in Ada, Okla., by

Ada Ice Cream Co.
